

# LUMINEERS<sup>®</sup>

The #1 patient-requested veneer

### Lumineers Placement Kit

The Lumineers Placement Kit includes everything you need for beautiful and accurate placement, all in one convenient package. The system provides the best tools for all of your all-porcelain cementations — beginning with try-in through placement and finishing. Backed with over 20 years of clinical studies, included in this kit are the award-winning Ultra-Bond<sup>®</sup> and Tenure<sup>®</sup> and the finishing kit placement materials.

Product	Item #
<b>Lumineers Kits &amp; Replacements</b>	
Lumineers Placement Kit	Lum1005
<i>Contents: 6 ml Tenure adhesive MPB A and B, Ultra-Bond Plus cement syringe shades A1, B1, B0, Supreme White (6 g ea.), Ultra-Bond Try-In Paste shades A1, B1, B0, Supreme White (1 g ea.), paint-on dental dam syringe (3 ml), Etch 'N' Seal (3 ml), porcelain laminate polishing paste (5 g), porcelain conditioner, Cennate Prime (5 ml), Schure 349 instrument, Ceri-Saw anterior handles (2 pc.) w/blades (10 pc.), Ceri-Sander handles (2 pc.) w/fine strips (6 pc.) and ultra-fine strips (6 pc.), Lumineers finishing diamond and bur block, Lumineers Placement Guide and Lumineers Technique DVD.</i>	

### Block-Out<sup>®</sup> Cement for Bonding Dark-Stained Teeth

Use Block-Out by Ultra-Bond Plus when you need a dual-cure cement to successfully block out tooth discoloration when a 3+ shade shift is needed.

Block-Out	032491510
<i>Contents: shades A1, B1, B0, Supreme White</i>	

### Shade Modification II System Resin Color Modifier and Opaquer System

Shade Modification II System allows for total translucency and opacity control of porcelain and composite restorations.

Tints can be used alone or layered. TetraPaque has been shown to have the maximum opacity with minimal thickness to cover dark stains, tetracycline discoloration, white spots, fluorosis and endodontic staining.

LumiGrip Suction Tips (10pc)	030752110
LumiGrip Grey Hose	040752102

### Lumineers® Finishing Kit Veneer Placement Finishing System

This finishing system is a great set of tools for any veneer placement. Each tool is specifically designed to quickly finish the laminate surface and interproximals without causing the patient pain or damaging the laminates.

Product	Item #
<b>Lumineers Finishing Kit</b>	
Lumineers Finishing Kit	033897100
<i>Contents: Lumineers Diamond and Bur Block, Schure 349 Instrument, porcelain laminate polishing paste syringe 5g, Ceri-Saw and Ceri-Sander handles (1ea), Ceri-Saw Anterior blades (10pc), Ceri-Sander fine strips (6pc), Ceri-Sander ultra-fine strips (6pc), syringe tips 18G (10pc)</i>	

### Ceri-Saw & Ceri-Sander Interproximal Finishing Tools

The Ceri-Saw is used for interproximal finishing of multiple laminates and separating fused composite restorations. Its exceptionally thin, sharp saw blades can easily cut through composite without concern for cutting porcelain.

The Ceri-Sander is a single-sided, diamond coated strip in fine and ultra-fine textures that is used for final finishing and smoothing of the interproximal.

Product	Item #
<b>Ceri-Saw Kits &amp; Blades</b>	
Ceri-Saw Anterior w/11 Blades <i>Contents: anterior handle w/11 blades</i>	031336500
Ceri-Saw Anterior w/1 Blade <i>Contents: anterior handle w/1 blade</i>	031336510
Ceri-Saw Anterior Blades (10pc)	031336520
Ceri-Saw Posterior w/11 Blades <i>Contents: posterior handle w/11 blades</i>	031336600
Ceri-Saw Posterior w/1 Blade <i>Contents: posterior handle w/1 blade</i>	031336610
